PROFILE SUMMARY

Software Engineer 1.4 years hands-on experience in **JavaScript, TypeScript, React.js, Node.js, and PostgreSQL**, skilled in building **scalable web applications, RESTful APIs, and interactive UIs**. Proficient in **React ecosystem, Express.js, and JWT authentication**, with focus on **clean architecture, performance, and scalability**. Experienced in **Agile teams, Git**.

EDUCATION

Bachelor of Technology in Computer Science
IES College Of Technology Bhopal, MP **8.48 cgpa**.

Aug 2020 - July 2024

EXPERIENCE

Associate Software Developer
Ansh Soft Tech, Pune

June 2024 – Aug 2025

- Engineered & optimized backend workflows with **secure RESTful APIs, PostgreSQL schema design, indexing, and query optimization**, ensuring high-performance data handling.
- Spearheaded the end-to-end **full-stack development** of scalable web applications using **TypeScript, React, Node.js, and Express**, delivering highly responsive UIs, optimized backend workflows, achieving up to 50% faster deployment
- Diagnosed, debugged, and resolved critical **production-level issues**, optimizing system performance to achieve 35% **faster frontend** load times and 50% lower **backend latency**, while ensuring application stability and reliability.
- Implemented **OAuth2 & JWT**-based authentication with role-based access control, strengthening security, ensuring compliance, and protecting sensitive user data through robust encryption, secure session management, **and token validation mechanisms**.

Software Developer Intern — Aiwf Technologies Private Limited, Bengaluru

Jan 2024 – April 2024

- Developed and maintained scalable web applications using **React** and **Redux-Saga**, focusing on creating responsive user interfaces and managing complex application states efficiently.
- Built and optimized **RESTful APIs** using **Node.js** and Express, ensuring smooth and efficient data flow.
- Built a **full-stack doctor appointment booking system** with secure **JWT**-based login for doctors and patients, dynamic doctor profiles, and real-time appointment scheduling.

PROJECTS

Doctor Appointment.

- Developed a **full-stack web application** for booking doctor appointments, enabling patients to easily find and schedule consultations with healthcare professionals
Doctor Profiles: Created dynamic doctor profiles including specialization, availability, and ratings.
- Built a **full-stack** doctor appointment booking system with secure **JWT**-based login for doctors and patients, dynamic doctor profiles, and real-time appointment scheduling.

SKILLS

Programming Languages:	Java, Python, JavaScript, Typescript, C++, SQL
Frameworks/libraries:	Next.js, React.js, Node.js, Tailwind CSS
Database:	MySQL, SQL Server, PostgreSQL, MongoDB
Tools:	Git/GitHub, Docker, Kubernetes, Jenkins, Postman
Cloud:	AWS (Lambda, S3, EC2, API Gateway)

ACHIVEMENT/ CERTIFICATES

- Mern Full Stack – SCA Live**
- Java Full Stack Certified – SCA Live**
